

Dear Students,

First and foremost, congratulations on making it to the end of the semester. You have shown incredible resiliency by making it through these trying times. We hope you are as proud of yourself as we are of you.

Second, your safety and education are our top priorities. Iowa Western has been working hard to develop plans to ensure you can safely continue your education. We have taken into consideration the recommendations from the CDC and the Governor's Office and will continue to do so moving forward. Below is information on our current plans. However, our plans may change as the situation evolves.

Summer Classes

- Will move forward as scheduled.
- However, changes have been made to how classes will be taught. This means that classes may have less time in the classroom or moved online.
- If you are registered for summer classes, any changes to your classes will show on [your schedule](#).
- If you have a summer class on campus, there will be safety precautions taken, such as face coverings, hand sanitizer, and nightly cleaning.

Fall Classes

At this point, we plan to resume classes on campus for the fall semester. However, we will continue to collaborate with the CDC and Governor's office and make any necessary changes to keep you safe. We will continue to communicate updates as the fall semester approaches.

We understand what a stressful time this has been and that you may feel anxious about the future in general, let alone your classes. Please know that we are here to support you and will do everything we can to ensure you safely meet your educational goals.

Sincerely,

Iowa Western
