

Plumbing Tool Program

Students in the Plumbing programs are required to have a tool set for lab activities. This document provides students with a list of the minimum requirements. Please note that this is a minimum list and you may have more tools than that. We recommend that you bring the most professional set of tools you can afford. If you currently own some tools of professional quality, you can purchase what you need to fill out your set. We can provide information for vendors who want to work with students to build their professional tool sets by selling complete sets, partial sets, and offer discounts to students.

- Sets must consist of professional grade tools and match the required list.
- Tool kits will be kept in the program area and must not be removed until the student has completed the program. Program staff and the student will inspect their box and contents when the student leaves the program.
- Most residential insurance companies can provide a rider to the policy at a minimal cost to cover personal tools and toolboxes.

The cost of the preferred tools is estimated to be @\$300. If you have financial aid and expect a refund this semester, you may be able to apply the refund toward the purchase of your tools.. To see if you have a refund coming to you, contact your College Success Advisor. See your advisor for further details.

Several tool vendors offer substantial discounts to current students of the Plumbing training programs. You have several options to purchase your tools.

Plumbing Tool Kit Requirements

- | | |
|---|---|
| <input type="checkbox"/> 25' Tape Measure | <input type="checkbox"/> Claw Hammer |
| <input type="checkbox"/> 14" Channel Lock | <input type="checkbox"/> #15 Tubing Cutter |
| <input type="checkbox"/> Torpedo Level | <input type="checkbox"/> 6 in 1 Screwdriver |
