

2026-2027 HVAC/R Program Toolkit

Students in the HVAC/R programs are required to have a professional grade tool set, see list below. A Snap-On toolkit may be purchased directly from the IWCC cashier. It is best to purchase it prior to the beginning of the semester to ensure delivery in time for class. If you currently own some tools of professional quality, you can purchase what you need to fill out your set.

- Tool kits will be kept in the program area.
- Most residential insurance companies can provide a rider to the policy at a minimal cost to cover personal tools and toolboxes.

The cost of the tools is \$2,239.72. If you have financial aid and expect a refund this semester, you may be able to apply the refund toward the purchase of your toolkit. To see if you have a refund coming to you, contact your College Success Advisor.

HVAC/R Toolkit Minimum Requirements
