

Customized Training

at Iowa Western

Business & Community Education

Program Overview

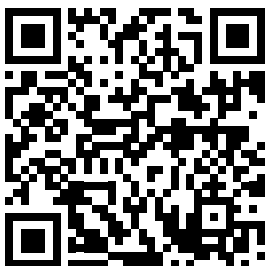

Customized Training

Iowa Western can offer you training focused on a huge range of topics including in any industry. Topics include Management/Supervision, Computer skills, Sales, Entrepreneurial Management, Basic Skills, Technical, Health & Safety, and more. We will also develop specialized training within your industry by working with experts. Your employees are your greatest asset, so start investing in them today!

Apprenticeships in Southwest Iowa

Apprenticeship programs are a proven system for training and retaining quality employees. Whether you are starting an apprenticeship, wanting to join an established apprenticeship or if you have students needing to become an apprentice with your company, Iowa Western can help you.

We can partner with you in developing and registering an apprenticeship with the Department of Labor. Apprenticeships must have related training hours and on-the-job learning skills. The duration of the apprenticeship will depend on the occupation. Reach out to Iowa Western today to meet with our apprenticeship team!
