

# Intermediary Network

at Iowa Western

Business & Community Education

## Program Overview

Iowa Western's Intermediary Network is a work-based learning program designed to improve the skills of the future workforce by connecting Iowa high school students and educators to local careers, through relevant, work-based learning experiences. The Intermediary Network will work with employers and educators to coordinate worksite tours, job shadows, internships, and educator-in-the workplace opportunities for high school students and educators.

### BUILDING THE FUTURE WORKFORCE

As a partner in work-based learning experiences, you will have a positive and lasting impact on the link between education and success in the workplace.

- Fill the skills gap and build the future workforce
- Meet demands of regional businesses
- Equip students with career awareness, employability skills and hands-on career experience
- Prepare students to enter and succeed in the workforce

### BENEFITS TO EMPLOYERS

Businesses that partner with the Intermediary Network influence not only students, but also the community.

- Showcase and promote your business
- Educate future workforce on career opportunities
- Promote quality jobs to area educators and students
- Compete with other businesses in the state, country and around the world
